MUSICAL.

Mr. Editor:

I DESIRE TO INFORM YOUR many readers that I am just receiving from the Manufacturers in Madgeburg, Saxony and Leipzig, Germany, a large stock of ACCORDEONS and CONCERTINAS of the latest styles, and of best quality; HARMONICAS of the best brands, FLUTES FOR ORCHESTRAS and MARTIAL BANDS, PICCOLOS, FIFES, VIOLINS, in short every thing in the Music line. Having purchased these goods on a *Falling Market* I am prepared to sell wholesale to Music Dealers and retail to the public, at prices never before obtained by them. I have also purchased a very large stock of American made goods from the Manufacturers, such as DRUMS, BANJOS, GUITARS, TAMBOURINES, ORGUNETTES, Etc., at exceedingly low prices for Cash. Instruments for BRASS or for MARTIAL BANDS will be supplied by me at less prices than can be obtained anywhere else; this will be evident on examination.

THE MASON & HAMLIN ORGANS are not equalled by any organs made. They have proved the most durable in this country; over 1,800 purchasers in this Territory say so. The principal musicians in the Territory have bought them for their own use in preference to all others. They have taken the first prizes at all the World's Exhibitions over all competitors. They are acknowledged by the world's musicians to be the BEST CABINET ORGANS MADE in either Europe or America. E. P. Carpenter's Organs are ranking next in quality, and are scattered all over the world, and are sold by the largest dealers with the greatest satisfaction. I have a large stock of these instruments to select from, at greatly reduced prices. My stock of Pianos will be found unequalled in quantity, variety of manufacture, quality and price.

SHEET MUSIC and MUSIC BOOKS a specialty; 6,000 pieces of Modern and Classic Music, of all grades, to select from. New vocal and instrumental music constantly received. One thousand song books, with music, containing 48 popular songs, just published, for 50¢. Penner's entire catalogue of music, of all grades, for BRASS BANDS, FIFE and DRUM BANDS, QUADRILLE BANDS, ORCHESTRAS, etc., etc.

I respectfully invite the public to examine my Large and Magnificent Stock of Pianos, Organs and other Musical Goods, which will be found to excel the combined efforts of the trade in this Territory, and to be beyond the reach of competition in Prices or in Quality.

THE FAR SOUTH.

An Old-Fashioned Celebration.

Mud and Fun Mixed.

TEMPE, September 16, 1882.

Editors Herald:

To-day is Mexico's natal day, and the population here being considerably Mexican, much interest, labor and expense has been manifested by that nationality. Firing of arms began last night, and has been kept well up. Flags of red, white and blue side by side with the carmine, white and green, were largely displayed; also a neat triumphal car, gaudily decorated in brilliant colors, surrounding an elevated open framework, with a pedestal—a throne for liberty's goddess.

With this a procession formed at 12. First, the marshals; next, a band of music, playing; then the car with liberty's queen standing bare, clothed in white, an attendant on either hand in red and green, and maids of honor in waiting—all standing—the whole draped in bright colors. The faces were fine, and the whole almost faultless. This was followed by maidens robed in bright, then the old soldiers in arms, ancient Mexicans in costume, then tradesmen and farmers' boys in good order, then carriages filled with gaily dressed people, all in the best of order, although as they passed our domicile the rain poured down as we have seldom seen it. This seemed no disturbance to the participants, who made as dignified a march through the mud as they would have done over a paved court.

We were greeted with cheers and waving of flags and discharge of arms. It was too bad really that rains that we had for months watched in vain for, should fall in resistless torrents, covering the ground to wading, upon these devoted celebrators.

Well, we are having the finest showers I have experienced for years—a great desideratum to the farmers now ready to put in grain. These valleys will doubtless make over 1,000,000 bushels of grain next crop.

The sun is out, the streets are flooded, and yet the celebration goes on.

"Old Shipmates."

Last evening the Theatre was well filled by an audience to witness the first presentation of R. G. Morris' comedy-drama "Old Shipmates." What has been said of the piece heretofore was fully sustained; it is brimful of fun, and is very sensational; but it is different from the ordinary sensational piece in that it has a plot that is well worked up, and the situations are not absurdly improbable. It also has the merit of being quite original in almost every respect: in conception, execution, detail and general result. The company is fairly excellent. Mr. Mordant, who is the hero of the piece, seems thoroughly suited to the character, and it is due to his rendition of the part, as much as to the author, that the character is so popular. In some parts the acting of the gentleman is very fine; it is always original, entertaining and pleasing. The part of the Commodore, and the maid, and Dan were also excellently acted, the remainder being fairly good. The applause throughout was only exceeded by the laughter, and both were general, the hits others also.

The ship scene painted by Mr. Tryon for the occasion, is superb. It takes up the whole of the stage and is one of the completest and finest things of the kind to be seen anywhere, reflecting great credit on the management as well as the artist.

"Old Shipmates" was a decided success, and no doubt another large audience will witness its presentation to-night.

By SOOTHING AND COOLING the sensitive lining of the air passages when irritated by a cough or cold, HALE'S HONEY OF HOREHOUND AND TAR prevents the formation of tuberculous sores in the lungs, which at length fairly honeycomb those organs. It is astonishing how soon it relieves coughing spells and pulmonary inflammation. Sold by all druggists.

Haynes & Son.

There is one undeniable evidence of success and that is constant employment for an increasing force of men. Haynes & Son have this evidence. They are constantly increasing their force of men, enlarging their facilities and becoming more and more popular. These are the result of honest work and of reasonable prices. Nothing more need be said, but we can guarantee those who want anything in the line of this firm that it will never be had cheaper nor be done better than they do it, a statement which every person with whom they have had dealings will support. About three weeks ago they turned out a couple of 2-fue boilers for the Horn Silver works. On Friday two 50-horse power boilers were taken from their shops and shipped to the once famous Emma mine in Little Cottonwood, and indicate first that work is to be resumed on that property, and second that the relief that there is yet large bodies of ore uncovered in this mine is still unshaken in the minds of some. They are now at work on a couple of boilers for the Lead Mine in Bingham—a mine which, from appearances, is being worked to its full capacity under the supervision, Mr. G. D. Schell. These two boilers will be sixteen feet long and forty inches in diameter. A short time ago they turned out a seventy-five horse power boiler for Z. C. M. I. and they are doing, besides, a large amount of general iron work. These items show a reviving prosperity in mining matters, and indicate that the firm stands well with men engaged in this as in other industries. They will have turned out four large boilers this week.

"Did She Die?"

"No; she lingered and suffered along, pining away all the time, for years, the doctors doing her no good; and at last was cured by this Hop Bitters the papers say so much about." "Indeed! indeed! how thankful we should be for that medicine."

Twelve Commandments.

- I. Be true. No one but a coward lies.
- II. Be bold. It is the only way to command confidence.
- III. Be clean. If your body and character are spotless, nothing can shame you.
- IV. Be careful. A heedless word or act may cost you a year's work or a lifetime of pain.
- V. Be quick. You can use a minute but once—make the most of it.
- VI. Be proud. A proud man cannot be mean; a mean man has no right to live.
- VII. Be honest. Credit is the premium paid for honesty. Run in debt only when it is necessary; and never unless you know you can pay.
- VIII. Love yourself. If you don't you can't love anybody else manfully.
- IX. Accumulate. The more you own, the more power you have.
- X. Never look back. You can't help the mistakes you have made. Don't make any more. Don't think of what you have achieved, but of what you may accomplish.
- XI. Do what you can do best. A man who was born to make clothespins never succeeds making pianos. Life is too short to do two things. Make your clothespins better than anybody else. This is the royal road to success.
- XII. Grow. If you can make pianos, don't waste your life making clothespins. DWIGHT S. DOW.

TO THE PEOPLE.

The high tuition exacted by professors of music has placed its acquirement in the hands of comparatively few, and beyond the reach of many. Hundreds of dollars are sometimes spent in obtaining a knowledge of music, and many would be glad to continue lessons, having once made a good start, who are prevented by circumstances. The public demand a change. In the interest of THE PEOPLE we have arranged a system of classes for the piano, organ and guitar, whereby the youth of our city who have not already engaged teachers, can have an opportunity of learning music, with a fair prospect of obtaining a thorough course at much less expense than by the old method of individual lessons. Those preferring the latter can also be accommodated at reasonable rates. We have noted with pleasure the good work of Brother Evan Stephens. His success should encourage us all to work for the good of the people at large. The twenty-one pupils selected from the Sabbath schools for one term on the organ gratis were to have commenced this week, but owing to a few wards not reporting, those classes will delay until next Monday, when it is hoped all will be ready. Our terms to additional classes will be 20 cents per lesson for each pupil on either instrument—piano, organ or guitar. Two lessons per week. A few more will be received in THE TELEGRAPH CLASS at 10 cents per lesson.
Respectfully,
